

- 1 Bottom pattern
- 2 Top pattern
- 3 Finished bottom
- 4 Finished top
- 5 All tucked in
- 6 Nighty night

Instructions:

This looks more complicated than it is, but they are easy to make, though the pattern looks a little strange.

In the picture (bottom cut 4,) the writing underneath says:
"Sew 2 right sides together on dotted lines."

Repeat with second 2 pieces.

Sew halves together leaving * to tip open for turning right side out.

The area below the words "Let hang to fill with beads half full."
is the top of the bottom bag.

Still with me???

The words on the top lid say:
cotton fabric works best.

sew 2 pieces together along dotted lines.

repeat with remaining pieces.

sew 2 halves together----- leaving an opening from * to tip.

turn right side out

fill a little less than half full while bag is hanging.

You use Polysterene Beads to fill.

Because of static electricity, make a funnel out of newspaper,
and pour into bag with a metal cup.

Good luck, I hope you will try this. I feel that this is among
one of the most useful things that I have in my storage
supplies. Gramma
